Teal Swan – The Spiritual Catalyst

Biography

Teal Swan, known to many as ‘The Spiritual Catalyst’ or the ‘Giggling Guide’ was born in Santa Fe, New Mexico on June 16th 1984. She was born with a range of extrasensory abilities including clairvoyance, clairsentience, clairaudience and claircognizance. Despite her young age, Teal is no stranger to extreme adverse circumstances. During her childhood Teal’s parents (who were both Wilderness Rangers), accepted a job in the Wasatch-Cache National Forest of Utah, unaware of the intensely religious climate of the location. Word of Teal’s unusual abilities got out and were not only frowned upon, but were also feared by many in the local religious community. Teal’s abilities attracted the attention of a family acquaintance who unbeknownst to Teal’s family was struggling with dissociative identity disorder and sociopathy. When Teal was just six years old, the family acquaintance inducted her into a local cult, and Teal was ritualistically and sexually tortured for a period of thirteen years.

Teal managed to escape from the cult when she was nineteen and began her process of recovery and transformation. Since her escape, Teal has become an internationally recognized spiritual leader and a powerful new voice in the field of metaphysics. She now travels the world as a spiritual luminary, using her abilities to remind people of the united, energetic nature of this universe and teaching people how to find bliss in the midst of even the most difficult challenges.

In 2012 Teal founded Teal Eye LLC. Along with an accompanying non-profit called Headway Foundation. The aim of both companies is to catalyze positive world change. The companies will achieve this by investing in programs, organizations and products that will revolutionize societal systems in many areas including justice, technology, education, agriculture and health care. Teal’s vision is to enable everyone on earth to live free, joyous and healthy lives and she is determined to make that vision a reality.
